EXPERIENCE

Backend Developer Intern

Duckcart.in

📅 nov 2022 - jan 2023

- Designed and developed multiple APIs, improving the functionality and efficiency of the website.
- Implemented and integrated a payment gateway for Paytm, resulting in a streamlined checkout process for customers.
- Optimized API performance, **reducing response time by more than 200ms** through efficient code optimizations, database query tuning, and implementing caching mechanisms.

Web Developer Intern

Magicstep solutions

📅 may 2022 - july 2022

- Worked as Full Stack Developer , created fast and reliable API's using **Nodejs** and Express and **MongoDB** for the database and **Reactjs** For frontend.
- implemented a subscription model using razorpay SDK for a project
- Integration of user-facing elements with server side logic.

PROJECTS

Project : Remote Code Executor 🔗

Tech Stack Used:

- **MERN** (MongoDB, Express.js, React.js, Node.js), AWS Lambda

Description

- Engineered a versatile Remote Code Executor, supporting a wide spectrum of programming languages, accommodating the diverse needs of users.
- Leveraged the full potential of the MERN (MongoDB, Express.js, React, Node.js) stack, ensuring a robust and highly integrated platform.
- Ensured exceptional scalability and reliability by strategically deploying the application on AWS Lambda, resulting in an elevated user experience and minimal downtime.

Project : Next-Meet 🔗

Tech stack used:

- **Reactjs** , **Nodejs** , socket.io ,MUI and Tailwindcss

Description:

- developed a robust video conferencing application utilizing cutting-edge technologies, including WEBRTC, simple-peer library, and socket.io, to enable seamless peer-to-peer connections and real-time information exchange.
- Designed and implemented intuitive user interface using ReactJS, MUI, and Tailwindcss, delivering an aesthetically pleasing and user-friendly application for participants. .
- incorporated features such as video and audio toggling, participant count tracking, and the ability to start meetings, with secure login and signup system using Firebase,

EDUCATION

B.Tech+Mtech.(Information technology)

Atal Bihari Vajpayee Indian Institute of Information Technology and Management

📅 May-2025

📍 Gwalior

- CGPA:8.12

CLASS XII

Shri Shivaji High School

📅 2020

📍 Washim,Maharashtra

- 83.23%

CLASS X

Shantiniketan English school

📅 2018

📍 Washim,Maharashtra

- 94.00%

SKILLS

C/C++

JavaScript

TypeScript

HTML

CSS

Nodejs

Reactjs

Redux

Docker

Git

RESPONSIBILITIES

- Mentored group of second-year students in Webkriti, a Web Development contest conducted by AASF

ACHIEVEMENTS:

- **AASF Winter Project:** Our project was a collaborative effort that focused on cloud computing. We proudly secured the first prize in this category, showcasing the dedication and teamwork of our group.
- **Flipr Hackathon XIV:** This hackathon was focused on the domain of web development, in which our team demonstrated exceptional proficiency, securing the top position
- **Codechef Exun 2021-22 Contest:** Secured Global rank 484 among 8000+ participants
